This is in response to Applicant's amendment filed on August 30 2004 in which claims 1-20 are presented.

**Status of Claims**

Claims 1-20 are pending.

***Allowable Subject Matter***

Claims 1-20 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: The present invention is directed to text display on a digital computer system, and in particular to the highlighting of information in a hypertext system. The closest prior art [Krause U.S. Patent no. 5,526,520] discloses a method to organize and manipulate blueprint documents using hypermedia links from a primary document to recall related secondary documents. However, Krause failed to show the claimed feature of "locating the quoted passage in the source document", and then displaying the source document, highlighting the quoted passage, where the highlighting of the quoted passage is based on the result of the locating step and not highlighting previously in the source document". These claimed features being present in all the independent claims 1, 7 and 13 render claims 1-20 allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
